Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Complaint handset models are publicly identified for consumers and audiologists. Compliant models are listed on the company web site, and retail sales personnel are trained to assist with compliant digital wireless phones. Compliant handsets are available for testing in retail locations. Written materials and promotional literature are provided at the point of sale and on the website, addressing the needs of individuals with hearing disabilities. Such consumers are given a 30-day trial period within which to try out digital wireless phones to determine whether they will work properly with their hearing aids.

Methodology for Functionality Levels

Levels of functionality are determined by consultation with the phone vendor/manufacturer on the subject of HAC functionality and the price class of the phone. The Levels are as follows: Android, Blackberry, Entry, and Mid-Tier.
